

Plastic surgery

Pre-task:

Which types of plastic surgery do you know? Find information on the internet and make lists of the most popular types in your home country.

Task 1:

Draw up a vocabulary list on the topic of plastic surgery together with your partner!

→ Tip: Create a “mind map” with the word “plastic surgery” in the middle and organise the other words around it.

Task 2:

Talk to your partner: What do you think about plastic surgery? Do you want to have an operation? If yes, which one? If no, why not?

I think plastic surgery is good / bad / terrible / a great idea / ...

Everyone must decide for themselves.

Unhappy / dissatisfied / less beautiful people should have an operation / exercise more / talk to friends / ...

Looks are (not) important / (a/no) big deal for me.

I can imagine having ... (surgery)

I (don't) like my face / stomach / buttocks / nose / eyes / ...

Follow-up activity:

Consider with your partner: Which country in the world performs the most cosmetic operations? Check internet statistics about this. (E.g.: [Countries with the highest total number of cosmetic procedures](https://www.statista.com/statistics/293356/leading-countries-by-total-number-of-cosmetic-procedures/))

Were you right? Which countries are top of the statistics? How is it in your country? Are these results surprising?
