

# Which hobby am I thinking of?

## Pre-task:

What are these hobbies called in your languages? Can you name any other hobbies, maybe more extreme ones like skydiving?

Image 1

## Task 1:

Which hobby am I thinking of? Each partner should describe a hobby to the other person. Talk about where people do this hobby and what you need to do it (equipment etc.). The useful phrases can be of help here.

I'm thinking of a hobby where you would need a parachute and a jumpsuit.

This hobby – where you have to jump out of a plane – is quite expensive.

This is about a hobby which many people think can be quite dangerous.

## Task 2:

Choose two hobbies and compare them. What are the advantages and disadvantages (e.g. costs, requirements, equipment, social prestige etc.) of each of these hobbies? Which of them would you, personally, choose and why?
